Earth after the Second Flood

Introduction to the Future Map of the World

How is it that a person can know the future? All of us have experienced precognitive events in our lives — a phone rings and we know who's calling, and sometimes why they are calling, before we answer it. Dreams often give us a glimpse of our future. Stories of people who have seen winged literary numbers in their dreams appear in the news. We have all heard reports of travelers who, upon arriving for a flight, change their plans and whose to get on the plane because of a feeling or premonition. Another phenomenon is the ability that some people have to detect earthquakes before they happen. These earthquake sensitives, or Earth change sensitives, who number in the thousands, demonstrate an ability to detect changes in the Earth through their bodies, they do this hours, days, and sometimes weeks in advance of occurrences.

On the academic side, subjects such as ESP have been studied by such esteemed universities as Duke, Stanford, and others. The data suggest that community simply has no knowledge about how the mind works; only that it exists and is probably different from the brain.

With the acceleration of Earth changes — earthquakes, hurricanes and volcanic activity — perhaps not other area of phenomena has created as much interest in Earth changes predictions.

Since 1979, I have had ongoing visions concerning the Earth, sometimes as many as ten or more in a day, lasting from a few seconds to minutes. Then in 1982 I began to sketch a world map based on these visions, and I updated it through the years as new information was presented to me. This map is the culmination of a major, ongoing effort to consolidate all the Earth change information I have received. As a result, the *Future Map of the World* is the most comprehensive and up-to-date representation of Earth change visions and information that has been presented to me.

The purpose of the *Future Map of the World* is to present a visual representation of probable geophysical events that may occur in the future. I feel that by sharing this information, an early warning system may be established that takes into account

modular changes in a particular area of the world. Help us to prepare for what is to come. Our final note, the areas of the *Future Map of the World* should be absolute. They may differ from actual hundred miles depending on the end. Mother Nature and our own consciousness will have the final say. I hope this map will stimulate your creative sense so that you can use it to focus on the areas of the map in which you are most interested.

GORDON MICHAEL SCALLION is an internationally known and respected futurist, teacher of consciousness studies and metaphysics, and spiritual visionary, now considered by many to be one of the most accurate intuitives of our time. Educated in electronics, Mr. Scallion experienced a health crisis and subsequent spiritual awakening in 1979 that left him with the gift of prophecy and an ability to view the ancient past and probable future.

Mr. Scallion is the author of the best-selling book *Signs from the Cosmos* and over 25 audio learning programs. He is an editor of *Intuitive Earth*. The

"The Fall of Babylon" (Revelation 18)

" 'Fallen! Fallen is Babylon the Great!' She has become a dwelling for demons and a haunt for every impure spirit, a haunt for every unclean bird, a haunt for every unclean and detestable animal. For all the nations have drunk the maddening wine of her adulteries. The kings of the earth committed adultery with her, and the merchants of the earth grew rich from her excessive luxuries."

"When the kings of the earth who committed adultery with her and shared her luxury see the smoke of her burning, they will weep and mourn over her. Terrified at her torment, they will stand far off and cry:

'Woe! Woe to you, great city, you mighty city of Babylon! In ONE HOUR your doom has come!' "

"The Fall of Babylon" (Revelation 18)

" The merchants of the earth will weep and mourn over her because no one buys their cargoes anymore-cargoes of gold, silver, precious stones and pearls; fine linen, purple, silk and scarlet cloth; every sort of citron wood, and articles of every kind made of ivory, costly wood, bronze, iron and marble; cargoes of cinnamon and spice, of incense, myrrh and frankincense, of wine and olive oil, of fine flour and wheat; cattle and sheep; horses and carriages; and human beings sold as slaves."

"They will say, 'The fruit you longed for is gone from you. All your luxury and splendor have vanished, never to be recovered.' The merchants who sold these things and gained their wealth from her will stand far off, terrified at her torment. They will weep and mourn and cry out:

'Woe! Woe to you, great city, dressed in fine linen, purple and scarlet, and glittering with gold, precious stones and pearls! In ONE HOUR such great wealth has been brought to ruin!' "

"The New Heaven and the New Earth" (Revelation 21)

"Then I saw "a new heaven and a new earth," for the first heaven and the first earth had passed away, and there was no longer any sea. I saw the Holy City, the new Jerusalem, coming down out of heaven from God, prepared as a bride beautifully dressed for her husband. And I heard a loud voice from the throne saying, "Look! God's dwelling place is now among the people, and he will dwell with them. They will be his people, and God himself will be with them and be their God."

The New Jerusalem

"One of the seven angels who had the seven bowls full of the seven last plagues came and said to me, "Come, I will show you the bride, the wife of the Lamb." And he carried me away in the Spirit to a MOUNTAIN GREAT AND HIGH, and showed me the Holy City, Jerusalem, coming down out of heaven from God. It shone with the glory of God, and its brilliance was like that of a very precious jewel, like a jasper, clear as crystal."

Earthquakes and seaquakes will appear ever more frequently as well as the resulting enormous tsunamis on the oceans and seas, which lead to further devastating destruction of human acquisitions and of landscapes as well as to mass deaths of humans.

Immer häufiger treten Erdbeben und Seebeben in Erscheinung sowie daraus hervorgehend gewaltige Tsunamis auf den Meeren und Seen, was zu weiteren verheerenden Zerstörungen menschlicher Errungenschaften und an Landschaften sowie zu Massentoden von Menschen führt.
